Additional Information for July Quarterly Report, Form #4

7) The Committee filed all 48 hour notices required. The contributions from Edwin Acheson and Lon Decker were not received until June 13th and therefore were not within the time period requiring a 48 hour notice. Both of these contributions were made by credit card, over the Internet and through Paypal. The funds were not reported to nor available to the campaign committee until June 13th. However, for purposes of creating the July Quarterly Report, the Committee downloaded a complete report of Paypal contributions from the Internet; parsed the fields in the report to match the required fields on the FECfile Import template, and entered the contributions directly into FECfile. The date that Paypal reported was the date that Paypal received notice of the contribution. Paypal transactions require at least 3 and sometimes 4 days before they are available. The July Quarterly Report has been amended to show June 13, 2005 as the date of receipt for both of these contributions. The contribution from Monica Small on the July Quarterly Report is the same as the contribution reported for Lisa Small on the 48 hour notice. See Item #5 on Form #3.

8) There is one other "bug" in the FECfile software worth mentioning. The Miscellaneous Electronic Submission (Form 99) does not indicate that it contains any limit on the amount of text which can be entered. Initially I entered all 7 items of explanation on one Form. I was able to print the form and save the report. However, after I closed the file, the next time the file was opened, only Items 1 and 2 and a small portion of Item 3 remained. I assumed that I had neglected to save the form before I closed it and re-entered my explanations for items 3 through 7. Again, I was able to Print Preview the entire text and I could close the Form 99 and re-open it with all text intact. However, once again, after the file was closed, text for items 3-7 was again deleted. Because of a software limitation, for which no notice is provided, I have had to type the text for these explanations three times.
